

The Italian Art Of Living

The Italian Art of Living

Alf Italia: our story...in numbers

1951 is the year when our adventure started.

*The **1,000,000** sq ft of production facility gives an idea of the physical size of the company, where family tradition and human values are considered the true company heritage.*

Every piece of furniture is created out of decades of experience and the work of a united and motivated team, in a positive and ethical environment.

The quality offered by the Alf Group is the result of the sense of responsibility felt by each and every worker. Thanks to the use of technology and the professionalism of its workers, the Alf Group guarantees the productivity and flexibility of a modern company, together with the care for processing techniques and customization options that come from its artisan origins.

We are present in more than 2000 stores in 92 countries worldwide.

I T A L I A  

100% Made in Italy

All Alf Group products are designed and manufactured in Italy, to guarantee precise and careful inspections at every stage of production.

Every Alf Group product is proudly made in Italy by a company that brings together creative talents, meticulous production and technological know-how, all in respect of its people and the environment.

These qualities are essential for a company continuously faced with the request of a developed international audience; and all of this must be done at a highly competitive market price given its quality and design.

A.L.F. UNO S.P.A. is certified by the **ISO 9001:2015**.

Our furniture finishes are mainly UV-based. All our furniture board is within the E1 norm for formaldehyde emission. By using UV-based finish the formaldehyde is sealed within the furniture board keeping emissions to an absolute minimum.

ATTENTION: PRODUCT APPEARANCE, SIZE, AND/OR MATERIALS MAY BE SUBJECT TO CHANGE WITHOUT NOTICE

CARB compliant

*California Air Resource Board or **CARB** certification* is based on the Airborne Toxic Control Measure (ATCM) regulation which aims to reduce and control formaldehyde emissions from wood-based materials used in California.*

***CARB** certification*, although compulsory only in California, has also been taken as a reference standard by large multinationals in the wooden-furniture sector, influencing many European manufacturers of semi-finished and finished products.*

****EPA 40 CFR Part 770 – TSCA Title VI Compliant***

100% Safe

ALF has always paid close attention to complying with international regulations, to safeguard the coupled human–environment system.

This commitment is also carried through to choosing suppliers who use only certified materials, for the health and safety, and peace of mind, of those who buy one of our products.

Each one of our products has a CARB-compliant label, indicating compliance with the current regulations.

*There is a second label on the outer packaging relating to “**Proposition 65**”.*

***Proposition 65** is a regulation that has been in place in the state of California for approximately 20 years and imposes specific information obligations on manufacturers when their products contain substances deemed hazardous by the state of California.*

The purpose of Proposition 65 is not to set emission limits but only to ensure that consumers are adequately informed about the substances contained in their products.
