LE FINITURE

I materiali utilizzati dalla nostra azienda sono selezionati tra i più affidabili per applicazione e resa estetica. Nonostante questo devono considerarsi tollerabili alcune differenze dovute alle caratteristiche stesse di materiali come essenze naturali, vetri, laccature e all'artigianalità di alcune fasi del processo produttivo che da sempre è un nostro valore aggiunto. Inoltre alcune finiture possono subire nel tempo maturazioni dovute all'azione della luce e del tempo. È importante quindi specificare se nell'ordine vi sono sostituzioni o completamenti per valutare insieme il miglior modo di procedere. Le tonalità di colore e le finiture illustrate vanno considerate puramente indicative. Verificare sempre la fattibilità dell'abbinamento finiture consultando l'interno del listino.

ALF UNO s.p.a. reserves the right to make any changes to products, measurements and materials at any time deemed useful for manufacturing and sales purposes. To stay up to date at all times, please visit our website www.valdesigncucine.it

FINISHES

The materials we use are selected among the most reliable products in terms of application and aesthetic rendering. Despite this, certain differences due to the very characteristics of materials such as natural wood finishes, glass and lacquers must be considered tolerable, as well as the hand-crafted nature of certain phases of the production process, which has always been one of our added values. In addition, some finishes may change over time, due to the effects of light and time. It is therefore important to specify whether there are replacements or completions in the order to assess the best way to proceed together. The finishes featured in this sample collection are purely indicative and are not available for all products. Please check in the price list if the finish is available for the chosen item. Orders will not be accepted for products with finishes not included in the price list. The colour shades and finishes illustrated herein are to be considered purely indicative. Always check the feasibility of finish combinations by consulting the price list contents.
