# CARE AND MAINTENANCE

Caring and Maintaining our Products only requires a clean, soft, damp cotton cloth.

The materials we use are selected among the most reliable products in terms of application and aesthetic rendering.

Despite this, certain differences due to the very characteristics of materials such as natural wood finishes, glass and lacquers must be considered tolerable, as well as the hand-crafted nature of certain phases of the production process, which has always been one of our added values.

In addition, some finishes may change over time, due to the effects of light and time.

It is therefore important to specify whether there are replacements or completions in the order to assess the best way to proceed together.

The finishes featured in this sample collection are purely indicative and are not available for all products.

Please check in the price list and in our internet site [www.alfitalia.it](http://www.alfitalia.it) what finish is available for the chosen item.

Orders will not be accepted for products with finishes not included in the price list.

This datasheet cancels and replaces all previous references to the colour chart and printed material.

A.L.F. UNO S.P.A. is certified by the ISO 9001:2015

## INFORMATION ABOUT ALF ITALIA PRODUCTS

Our Company applies a quality assurance system based on the ISO 9001 International Standards.

Our products comply with regulations for low formaldehyde emissions.

Our UV based finishes and anti-aging chemicals restrict furniture colour changes when exposed to the UV light in the home.

Our polyester finish is flow coated to the entire product and then UV light cured in finish ovens.

Our polyester finish is more durable than normal furniture finished with lacquer coatings.

Our polyester finish brings out and maintains the beauty of the wood veneers used in our Products.
